Premia Properties and We4all join forces to raise environmental awareness at the 2nd Primary School of Oropos

Athens, February 5th, 2024

Premia Properties, guided by a commitment to the **evolution and well-being of the environment and society**, stands as one of the leading companies in sustainability within Greece. The company excels not only as an employer and business partner, but also as a value creator for its shareholders. By placing **Sustainability and ESG compliance at the forefront of its operations**, Premia employs a contemporary corporate governance model, solidifying its reputation as a responsible corporate citizen.

In this context, Premia is delighted to announce the successful execution of an environmental awareness activity in collaboration with the **global non-profit organization We4all, dedicated to environmental and humanitarian causes**. This initiative occurred on January 26th at the 2nd Primary School of Oropos, a property within Premia's portfolio, as part of its broader cooperation with the organization.

During the program, the students of the 5th grade were enlightened and educated on crucial environmental issues through a customized presentation. Under the guidance of qualified teachers, important topics such as tree planting, sea protection and recycling, using special designed educational material. Students learned about the problems of the planet in an interactive way and were motivated to adopt an environmentally friendly lifestyle. As a thoughtful conclusion to the program, every student received a sustainable, plantable seed pencil as a gift, symbolizing a meaningful and educational gesture.

Mr. Georgios Bakos, Chief Operating Officer & Head of Asset Management of Premia Properties, said: *"We are delighted with the successful implementation of the educational program at the 2nd Primary School of Oropos, managed by Premia Properties. As a company committed to sustainable development and dedicated to respecting the environment and society, supporting environmental organizations aligns with core philosophy of Premia. We are thankful to We4all for their support, and eagerly anticipate continuing our collaboration to further promote environmental awareness in school facilities, an area where Premia is particularly engaged."*
